

Getting Ready for Installation Day

RENEWAL
by **ANDERSEN**
FULL-SERVICE WINDOW & DOOR REPLACEMENT

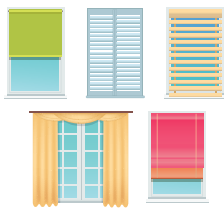

1

Clear all furniture around the window & door areas by roughly 2-3 ft or as far as you can.

2

Remove window coverings (like blinds, curtains, and shutters) to prevent damage during installation.

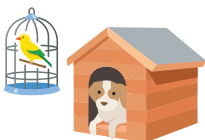

3

Disarm and disconnect any alarms that are connected to your windows or doors.

4

Remove picture frames or wall art on the same wall as the windows & doors to prevent potential damage from wall vibrations.

5

Ensure that all pets are kept out of the way for their safety.

6

Prepare to complete payment on the final day of your installation based on the preferred method of payment you chose during your design consultation.

7

Upon completion, our installation team will conduct a homeowner walk-through review. This is our way of ensuring we have delivered a 10/10 experience for you!

Our Customer Care team is always here for you:
